## GREETINGS

Once again from Ukiah, I wish to say "hello". Thanks for so many wonderful letters and orders during this past season.

So many of you ask about the twins in your letters. No one ever asks about me. Well, the twins are now 27 months old and full of ginger. Did you ever have five hands on a screwdriver when you fixed a toy or five hands on a hammer handle cracking walnuts? My wife calls them "helpful-Hannahs". Jerald is now 15 and has 15 merit badges more than Eagle in his scout work. Bonnie Lynn now 12 is a wonderful little baby sitter. She gets all A's on her report card and a note from the teacher saying she could do better if she tried. My parents would have fainted if I had brought all A grades home even once.

We try to list the very best glads in existence. I get catalogs from all of the best growers all over the world. From the hundreds of new varieties that come out every year, I try to make available only the best of the widest possible selection. I guess there are about 500 real good varieties. Of these I have tried to list about 125 of the best without duplicating almost identical ones. We seldom list new expensive glads until they come down in price and are proven to be good in various sections of the country. To me over \$1.00 per bulb is just too much to pay, no matter how good the glad is. If you have a favorite **that is** not listed, there is probably one just as good or better of the same color listed here. This **is** by far the best list of glads I have ever put out.

CULTURE DIRECTIONS WILL BE SENT WITH EVERY ORDER.

*W. J. Mason*
